DETAILS

X-389 is a protective glove made from an 18-gauge seamless nylon liner and innovative polyurethane Simplex™ coating. The coating is bio-degradable, can provide perfect barrier protection against viruses, and minimize the risk of contact with micro-organisms because it meets the EN ISO 374-5 Virus standard. X-389 has better sweat absorption and high dexterity compared to disposable gloves. Meanwhile, this glove has extraordinary durability and is washable.

PRODUCT DESCRIPTIONS	
Series	X-Supra™, battle with Virus
Available Size	7-8-9-10-11-12
Liner Material	Nylon
Liner Color Available	Blue, black (other options are available upon request)
