PRODUCT FEATURES

- Cut level A7/F protection
- Light in weight
- Soft and flexible
- Breathable

POSSIBLE APPLICATIONS

PERFORMANCE REQUIREMENTS

EN ISO 21420	PASS
EN 388	2X4XF
ANSI Cut Resistant	Level A7

DETAILS

A7-500 is an arm protective sleeve made from 15-gauge seamless HPPE/Steel yarns. This sleeve has a steady performance A7/F cut protection (reaching the highest CE cut level resistance), which can protect arms from being cut by biting blades, sharp branches, and pet scratches. The additional steel clip on the upper arm is designed not only for the users to clip on the cloth to prevent the sleeve from sliding down during work, but it will also allow the users to carry the sleeve more conveniently. This sleeve is light in weight and makes the user feels soft, flexible, and breathable. A7-500 is widely used in general mechanical working areas.

PRODUCT DESCRIPTIONS	
Series	Anti-cut sleeve, Arm protection
Available Size	14", 18", 22" (other options are available upon request)
Material	HPPE/Steel
Color Available	Grey (other options are available upon request)
