

B-111

Crinkle Latex glove, 10-gauge seamless Polyester liner, Palm coated

PRODUCT FEATURES

- Puncture resistance
- Excellent grip in dry and wet environments
- Water resistance

POSSIBLE APPLICATIONS

PERFORMANCE REQUIREMENTS

EN ISO 21420	PASS
EN 388	2242X

DETAILS

B-111 is a protective glove made from a 10-gauge polyester and latex coating with crinkles. The characteristics of latex are excellent gripping in either a dry or wet environment and resisting water. The crinkle surface on the palm enhances the grip compared to the smooth surface. The palm surface of the B-111 has a certain puncture because the glove is thicker than the 13-gauge gloves. This glove is widely used in logistics and construction working areas where the job is heavier.

PRODUCT DESCRIPTIONS	
Series	Latex
Available Size	7-8-9-10-11
Liner Material	Polyester
Liner Color Available	Yellow (other options are available upon request)
Coating	Crinkle latex
Coating Color Available	Green (other options are available upon request)
Design	Palm coated, knit wrist
Thickness	1.8mm on palm
Wash Care	Recommend to use mild detergent or soap and tempered water, avoid using extremely high temperatures when washing and drying (beyond 40°C / 104°F). Wash in a 5-10 minutes cycle time. Rinse in cold water.
Packaging Reference	12 Pairs x 12 Dispensers x 1 Carton 50x28x42cm
