DETAILS

B5-310 is a protective glove made from 13-gauge HPPE/Steel and Polyurethane coating. Polyurethane coating has the characteristics of silicone-free and light in weight. B5-310 has a steady performance A5/E cut protection. Meanwhile, this glove provides excellent grip in all environments. It also offers high dexterity and is air permeability. This glove is widely used in general mechanic protection, for example, packaging, cleaning, and electronic assembly.
