DETAILS

P-116 is a protective glove made from a 15-gauge microfiber/nylon liner and latex coating with sandy finished. The microfiber liner can absorb the sweat and keep the hand dry and comfortable. The characteristics of latex are excellent gripping in either a dry or wet environment and resisting water. The P-116 glove is breathable, light in weight, and has high dexterity. This glove is designated to provide the user with an ultra-soft and enjoyable experience during daily work.
