DETAILS

P-318 is a protective glove made from 18-gauge Nylon and Polyurethane coating. Polyurethane coating has the characteristics of silicone-free and light in weight. The uniqueness of P-318 is that *ultra-thin enables users to easily handle tiny objects*. Meanwhile, the glove provides excellent grip in all environments. It also offers high dexterity and air permeability. This glove is widely used in general mechanical protection, for example, packaging, cleaning, and electronic assembly.
