DETAILS

WR-150 is a protective glove made from a 15-gauge polyester shell with a 7-gauge acrylic terry liner and latex coating from the palm to the knuckle of the hand back. The acrylic terry liner keeps the users' hands warm. The characteristics of latex are excellent gripping in either a dry or wet environment and resisting water. WR-150 glove is breathable and has dexterity. This glove is suitable for high flexibility in a low-temperature working environment.
