

P-901

PVC/Nitrile glove, Seamless Nylon lining, TPR on the back, PVC particles on the palm, Safety cuff

PRODUCT FEATURES

- TPR on the back for impact protection
- Excellent grip in dry and wet environments
- Water and oil resistance
- Chemical resistance
- Silicone free
- Durable

POSSIBLE APPLICATIONS

PERFORMANCE REQUIREMENTS

EN ISO 21420	PASS
EN 388	4X41A
ANSI Cut Resistant	Level A1
EN 374-1 Chemical Resistant	Type B (JKL)
Silicone Free	PASS
EN 1186 Food Contact	PASS

DETAILS

P-901 is a protective glove made from a 15-gauge seamless nylon lining, PVC coating with particles, and PVC/polyester cuff. The PVC rough palm prevents water, oil, and chemicals (40% Sodium Hydroxide, 96% Sulphuric Acid & N-Heptane) from penetrating the glove, keeping the user's hand dry and clean. Meanwhile, it provides a good grip in heavy oil situations. The TPR on the back brings good impact protection. P-901 is used in the crude oil drilling industry.

PRODUCT DESCRIPTIONS	
Series	PVC
Available Size	9-10-11-12
Liner Material	Nylon
Liner Color Available	White
Coating	Mixed PVC/Nitrile
Coating Color Available	Red (other options are available upon request)
Design	Fully coated, TPR on the back, Textured on the palm, safety cuff
Thickness	2.1mm on palm
Wash Care	Recommend to use mild detergent or soap and tempered water, avoid using extremely high temperatures when washing and drying (beyond 40°C / 104°F). Wash in a 5-10 minutes cycle time. Rinse in cold water.
Packaging Reference	5 Pairs x 12 Dispensers x 1 Carton 70x42x34cm
