Product Data Sheet

DETAILS

WM-701 is a 3-layer anatomic glove made from a polyester liner, PU synthetic rough palm, and waterproof membrane. The polyester liners keep the user's hands warm and protect them from cold. The inner glove is designed with a waterproof membrane. The velcro cuff designed enables the user to wear the glove fitting and comfortable. This glove provides the user with a breathable feeling. WM-701 is widely used in general work protection during the winter season.
