# **Product Data Sheet**

### **DETAILS**

P-322-BIO is a protective glove made from 18-gauge seamless RPET fiber liner and soft Biobased PU coating. The soft Bio-based PU coating features lightweight design and high levels comfort, with the benefit of being recyclable and reusable. Meanwhile, the glove provides reliable 360° protection and excellent grip in dry condition. It also offers high dexterity and air permeability as well as screen-touching function. This glove is widely used in delicate assembly work and other sensitive activities.
