# Product Data Sheet

## DETAILS

B-111R is a protective glove made from 10-gauge RPET liner and latex coating with wrinkles. The characteristics of latex are excellent gripping in either a dry or wet environment and resisting water. The wrinkled surface on the palm enhances the grip compared to the smooth surface. The palm surface of the B-111R has a certain puncture because the glove is thicker than the 13-gauge gloves. This glove is widely used in logistics and construction working areas where the job is heavier.

PRODUCT DESCRIPTIONS	
Series	MAXGUARD
Available Size	7-8-9-10-11-12
Liner Material	RPET
Liner Color Available	Blue,White (other options are available upon request)
Coating	Wrinkle Latex palm coating
