## DETAILS

B5-314R-BIO is a protective glove made from 13-gauge seamless HPPE/RPET/Steel fiber and Bio-based PU coating. The Bio-based PU coating features lightweight design and high levels of comfort. Reinforcement - between the thumb and forefinger, improves cut resistance and extends glove life in an inherently weak area 360° breathability. Meanwhile, the glove provides high dexterity and excellent grip in dry condition. It also has a screen-touching function. This glove is widely used in general mechanical protection, for example, packaging, cleaning, and electronic assembly.
