## DETAILS

K6-321R-BIO is a cut-resistant glove made of 21G seamless TekArmor®/Spandex liner and Bio-based soft PU coating. High performance yarns and fibers that offer cut protection while maintaining high levels of comfort. Reinforcement - between the thumb and forefinger, improves cut resistance and extends glove life in an inherently weak area 360° breathability. The strengthened thenar eminence can provide perfect protection and it complies with the standards of the United States and Europe. Compared with ordinary gloves, K6-321R-BIO has better protection. At the same time, this glove also has a screen-touching function.
