# Product Data Sheet

## DETAILS

R4-276 is a protective glove made from 13-gauge seamless HPPE/Steel fiber and Smooth Nitrile fully coating/Sandy finished Nitrile palm coating. The coating features lightweight design and high levels of comfort. The glove provides reliable 360° protection and excellent grip in humid environments. Meanwhile, this glove has the characteristic of abrasion resistance and touchscreen capability. It also offers high dexterity and air permeability. This glove is widely used in delicate assembly work and other sensitive activities.
