Product Data Sheet

DETAILS

R-175 is a protective glove made from 15G seamless polyester liner with Velcro cuff and smooth latex fully coating/Sandy latex palm coating. The characteristics of latex are excellent gripping either in a dry or wet environment and resisting water. At the same time, with the use of Velcro fasteners, it becomes even easier to wear. This glove provides the user with a breathable, soft, and flexible feeling. It is widely used in general protection such as gardening, construction, cleaning, aquaculture, etc.
